EDUCATION

B.Sc. in Software Engineering, *Islamic University of Technology* 2023 – Present

- **Semester:** 6th of 8 semesters
- **Relevant Coursework:** OOP, Server Programming, Cloud Computing, Design Patterns, Software Requirements and Specifications.

PERSONAL EXPERIENCE

Team Lead - Communications, *IUT Debating Society (IUTDS)* 2025 – Present

- Worked in a role combining public relations and outreach, leading internal and external communications, event coordination, and sponsorship outreach.

Cultural House Prefect, *Cantonment Public School and College, Rangpur* 2018 – 2020

- Worked in supporting the planning and management of cultural programs, student activities, institutional events, and coordination of co-curricular initiatives.

PROJECTS

EduStream  , *NextJs, Node, WebRTC, MongoDB* 2026

- Browser-based virtual classroom platform powered by WebRTC.
- Developed client-side code for virtual meetings, waiting rooms, in-meeting chat, and user profiles.
- Integrated Excalidraw virtual whiteboard package.

Endora AI  2026

- An AI-powered platform that enables early endometriosis detection.
- Developed the official startup website and implemented the Doctor Support module within the mobile application.
- Conducted stakeholder interviews with healthcare professionals to gather clinical requirements and translate them into functional system features.

PawPal  , *React Native, Node, Expo, MongoDB* 2025

- A mobile application designed to simplify pet adoption and healthcare management.
- Developed client-side code for user/pet profiles, adoption, medical records, foster care, nearby vet tracking, community discussion, and Q&A.
- Integrated map using Leaflet and tested it with Expo.

qPhysics  , *Java* 2025

- A reusable physics library for java.
- Implemented Motion, Conversion, Force, Energy, and Simulation modules.
- Packaged the library as an exportable JAR for easy integration.

SKILLS

Programming — Java, Javascript, Python, C++, SQL

Tools — AWS S3, MongoDB, Git, Postman, Cursor, Docker, Canva, Figma, Illustrator, MS Office

Concepts — OOP, Design Patterns, Layered Architecture, Cloud, Agile Methodologies

Extra-Curricular & Soft Skills — Debate, Business case solving, Critical thinking, Impromptu speaking and Persuasive communication, Teamwork, Leadership, and Coordination

ACHIEVEMENTS

Bangkok Business Challenge by Sasin <i>🔗, Top 12</i>	2026
• Selected among the Top 12 out of 385 startup teams representing 20 countries worldwide. • Developed Endora AI, an AI-powered platform for early endometriosis detection using guided ultrasound, explainable AI, and telemedicine. • Delivered the 60-second pitch to an international panel, presenting the venture's innovation and impact.
